

SECRET

DIARY NOTES

DD/A

25 May 1954

1. Asked Ed Saunders to send me a copy of the monthly report which he is submitting to the Bureau of the Budget.

2. Jim Garrison and I had lunch with Paul Beach, Chief Clerk on the Staff of the Joint Committee on Printing. Out of this discussion it was clear that Mr. Beach desired to be the point of contact for CIA business. I told Mr. Beach that such an arrangement was entirely acceptable to us and that we had no objection whatever to Mr. Harrison (Staff Director of the Committee and our usual contact) participating in these discussions but that we would in the future use him, Mr. Beach, as our point of contact. I requested that he confine his contacts in the Agency to Mr. Garrison. In addition I said that while in the past we had used Mr. Harrison not only as a point of contact but also as a consultant I did not feel that we needed a consultant at the present time since [redacted] had supplied this need. I emphasized that I did not want to issue any more building passes but would be glad to arrange to show Mr. Beach around our Plant anytime he wanted to see it. This was all entirely acceptable.

We then discussed the possible merger of the Government Printing Office-State Service Plant in the South Building with our Printing and Reproduction Plant [redacted]. It was more than obvious that Mr. Beach was anxious to see this go through and that he was somewhat miffed at the GPO people whom he thought were deliberately dragging their feet. He said that even though he had asked the Government Printing Office for certain information over Senator Jenner's signature they had not fully complied. I told Mr. Beach that CIA would not take the initiative in this matter but that I thought it would be unfortunate at this stage of the game if some study of the proposal were not made. He agreed and indicated that he had a directive from Senator Jenner to step into the matter and sort it out. I indicated our willingness to cooperate in any way and supplied him with a copy of my letter to Mr. Blattenberger on this subject. (I also sent Mr. Blattenberger a copy of my letter to Mr. Beach.)

Later in the afternoon Jim Garrison reported on a meeting that he had had with representatives of the Government Printing Office during which he had gotten a very definite impression that they were now opposed to our taking over their Plant, and, in fact, indicated that they might like to take over ours. I told Jim to do nothing until he had a Memorandum for the Record and talked to me about it.

3. Sent the paper [redacted] for his comment.

4. George Meloon telephoned to say that an informal arrangement had been made with the Department of the Air Force which would permit [redacted] to be

SECRET

25X1 called to active duty and detailed to CIA. No objection will be raised to our allowing him to go to school during this period. The Air Force emphasized, however, that [] should not advertise his status and stated that they would rather not have anything official in their records on the matter.

25X1 5. Talked to Doctors Tietjen and [] about the propriety of a Personnel Index Questionnaire which they are asking employees to fill out in connection with psychiatric screening. Told them that I felt sure the portion having to do with sex would have to be modified, if not deleted, and asked them to think of other ways in which they could accomplish their purpose. I agreed to review the remainder of this Questionnaire more carefully and to give them my views on it. H

25X1 6. Mr. Kirkpatrick agreed to send me his file on the overobligation of funds []

7. George Meloon asked me if I was still interested in receiving the daily report on temporary duty assignments overseas. I told him that I was not and that he could discontinue it.
